Marian College Shoes Policy 2016

In line with the requirements of the Occupational Health and Safety Act under which we have to operate.

The Marian College Shoe Policy states that all students must wear only full-fitting, traditional school shoes with lace up fronts that provide both a robust sole, good support for growing feet, and a non-permeable polishable leather upper that protects the entire top of the foot. T-Bar or ballet style shoes are no longer acceptable as school shoes nor will any shoe that has perforations or mesh inserts.

Black runners, walkers or skater shoes do provide sufficient protection from dropped tools, toxic or scalding spills. Therefore they are not acceptable due to the perforations and mesh panels.
